

GAYATHRI J

Full-Stack Developer

✉ gayathrijrsd@gmail.com ☎ 8825623973 🔗 Portfolio  LinkedIn 📍 Pudukkottai

Professional Summary

Full-stack developer skilled in React, Node.js, Express, and MongoDB, building responsive web applications with Firebase Authentication and REST APIs. Focused on writing performant, maintainable code and delivering complete, end-to-end solutions.

Skills

Programming & Web Development

JavaScript, React.js, Redux, Node.js, Express.js, HTML, CSS, Tailwind CSS, JWT, Socket.io

Database

MongoDB Atlas

Tools & Platforms

Git/GitHub, Firebase Authentication, Postman, OpenAI API, REST APIs

Projects

QueueFlow – Smart Queue Management System

- Built a full-stack hospital queue system with JWT authentication and role-based access for Admin and User roles.
- Engineered real-time queue sync via Socket.io  for instant booking, serving, skipping, recalling, and completion — validated with 10+ concurrent tokens across live cross-tab sessions.
- Designed an admin dashboard managing 5 hospital departments and full queue lifecycle through 19 RESTful API endpoints.
- Built a responsive patient interface with Tailwind CSS featuring live queue tracking with real-time "now serving" status, token booking, wait-time estimation, and self-service cancellation.

LegalEase – AI-Assisted Legal Rights Platform

- Developed a full-stack MERN platform integrating the OpenAI API to power an Ask AI module, enabling users to query legal rights in plain language.
- Built four core modules — Ask AI, Download Templates, Browse Laws, and Suggest Box — with a responsive UI using React and Tailwind CSS.
- Structured legal content into organized categories with intuitive navigation, reducing friction for users unfamiliar with legal terminology.

ShopNest – MERN Stack E-commerce Website

- Engineered a full-stack e-commerce platform using React, Node.js, Express, and MongoDB Atlas with secure user authentication via Firebase.
- Built end-to-end shopping features including product listing, cart management, and a complete checkout flow with order summary.
- Architected role-based REST APIs with Express, restricting product management to authenticated admins and separating user/admin access.

Education

Master of Science - Computer Science, *Bishop Heber College, Trichy* 06/2024 – 04/2026
CGPA : 8.46

Bachelor of Science - Computer Science, *Bishop Heber College, Trichy* 06/2021 – 04/2024
CGPA : 7.85

Certifications

Full Stack Web Development, *Error Makes Clever Academy* 2024
Duration: 3 Months
